

iTAC Achieved Success at Nepcon 2018 Shanghai

Shanghai, April 28, 2018 – During Nepcon 2018 Shanghai, iTAC has demonstrated Industrial IOT (IIOT), Big Data, Artificial Intelligence (AI), Global Monitoring, and latest MES version. The innovative design and technologies are highly appraised by customers, machine vendors, and software partners. iTAC would like to express appreciation to all audience and visitors.

“From various concrete communication, we’ve seen the significant values that iTAC smart factory products can bring to customers and partners. We strongly feel the compelling need that customers want to strengthen their competitiveness by realizing smart factory. iTAC will continue to focus on technology, service, and therefore making contribution to China smart manufacturing initiatives.” said Johnny Hsieh, General Manager of iTAC Software China.

iTAC has been awarded “Innovative Power and Stability as Industry 4.0 tone setter” by expertON Group. For this major trend, iTAC has continuously released products and solutions towards goals of Smart Factory, including:

- AI (Artificial Intelligence): Leverage AI technology to realize non-stop production and maximum throughput.
- Big Data Analytic to realize real-time performance and KPI analysis
- IIOT (Industrial Internet of Things) to realize Connected Factory
- MES latest version 9, various new functionalities for manufacturing requirements

About iTAC Software AG

iTAC Software AG, an independent company of the mechanical and plant engineering group Dürr, provides Internet-enabled information and communication technologies for the manufacturing industry. Founded in 1998, the company is one of the leading MES providers in Germany. The iTAC.MES.Suite is a cloud-based Manufacturing Execution System that is used worldwide by companies in different industry sectors such as automotive manufacturers and suppliers, electronics/EMS/TC, medical technology, metal processing and energy. Additional services and solutions enable the implementation of industry 4.0 and IIoT requirements. iTAC’s philosophy is connecting people, data and systems. iTAC Software AG has its headquarters in Montabaur (Germany) as well as a branch in the USA and China.
