

**Partnership confirms technological strength of the iTAC Manufacturing Execution System (MES) in the international market**

**iTAC Software AG cooperating with GreatWall Digital Software in China**

**Montabaur, July 19, 2018** – iTAC Software AG ([www.itacsoftware.com](http://www.itacsoftware.com)) and Xi'an GreatWall Digital Software Co, Ltd. have entered into a partnership. As part of this cooperation, Xi'an GreatWall Digital Software is supporting iTAC in the implementation of the iTAC.MES.Suite in China, and will also be offering it to its customers. The partners are also developing joint industry solutions for the Asian market based on iTAC's MES.

With this partnership, iTAC has greatly expanded its development and service capacities in China, and will so be able to handle the rapidly growing volume of installations in this market. Xi'an GreatWall Digital Software, alongside its other activities, develops and distributes digital campus software and solutions for optimised secure business processes. The company's expertise ranges from the development of web applications through to AI and system integration solutions. iTAC customers can then also benefit from these solutions.

"With Xi'an GreatWall Digital Software, we have gained yet another market leader as partner, and will therefore be able to support our customers even more effectively in implementing our solution using local resources. The new cooperation also underlines the partner capability of our products and is a further milestone in the expansion of our international partner network," explains Peter Bollinger, CEO of iTAC Software AG.

**About iTAC Software AG**

iTAC Software AG, an independent company of the Dürr mechanical and plant engineering group, provides internet-enabled information and communication technologies for the manufacturing industry. Founded in 1998, the company is one of the leading MES providers in Germany. The iTAC.MES.Suite is a cloud-based Manufacturing Execution System that is used worldwide by companies in different industry sectors such as automotive manufacturers and suppliers, electronics/EMS/TC, medical technology, metal processing and energy. Additional services and solutions enable the implementation of Industry 4.0 and IoT requirements. iTAC's philosophy is connecting people, data and systems. iTAC Software AG is headquartered in Montabaur (Germany), and has a branch in the USA and a global partner network for sales and services.

The Dürr Group is one of the world's leading mechanical and plant engineering firms. Products, systems and services offered by Dürr enable highly efficient manufacturing processes in different industries. Business with automobile manufacturers and their suppliers accounts for approximately 60% of Dürr's sales. Other market segments include, for example, the mechanical engineering, chemical and pharmaceutical industries and the woodworking industry.
